Outdoor Bench #3c

Sapele and Cast Concrete 18"H x 77"W x 21"D

This 6' version of the contemporary Outdoor Bench #3 is displayed here to make the point that my work can not be duplicated. Each piece is a moment in time that is a reflection of my thought process and the materials that I have to work with. This version of the bench is very different from the one that came before it but they share the same name because they are different expressions of the same ideas. The Outdoor Bench Series is designed so that each bench is an open system that encourages me to make other versions showing off the variation that my work allows for while staying true to the original idea.
