Nico Yektai

Outdoor Bench #6

Sapele and Cast Concrete 18"H x 72"W x 18"D

The cast concrete legs of this modern dining bench have a dramatic step detail that immediately sets this bench apart from my other pieces. The Sapele stretches butt up against the concrete legs and then display their own individuality as they make the journey to the other leg. The Sapele seat maintains the same comfortable angle that can be found in most of my benches. These are the features that make this bench so well suited as a modern dining bench for indoor or outdoor use.
