Nico Yektai

Chair #4

Maple and Upholstery 34"H x 18"W x 20"D

This modern dining chair with its steam bent back was designed to accompany Dining Table #4. The chair is best displayed in groups so that the variation from one to the next can really stand out. This individuality that each piece develops is due to the freedom that my style embraces. Each version of the chair reflects a unique set of actions and reactions. Together two chairs shows this more clearly than looking at just one.
