Nico Yektai

Desk #1

Maple and Upholstery 31"H x 72"W x 33"D

The modern Desk #1 is very important to my development as an artist. This is one of my earliest pieces and it still stands as one of my best. The sweeping curves of the modesty panels around the desk relate to the feeling that the top portrays. The feeling of movement- it is as if the desk has been pulled like taffy and frozen in a moment. The drawers have been pulled with everything else and they open in different directions forcing the user to surrender to the desire of the desk since their preconceived notion of pulling the drawers straight out does not get the drawer open. Watching that ah ha moment always put a smile on my face.
