## Pedestal Table #5

*White Oak 30"H x 20"W x 20"D*

This designer made end table, Pedestal Table #5, came about as some pieces do- via pure inspiration. The idea for the curves that helped to support the useable surface with the emotion of a passionate embrace set the construction and composition of this sketch into full motion. I have used the lessons learned from this composition in a number of other pieces including the rail table and pedestal table #8 and #9.
