## Pedestal Table #8

*Maple 30"H x 20"W x 20"D*

This contemporary end table is part of the Pedestal Table Series which I view as a series of sketches. This piece refers back to Pedestal Table #5 which introduced the sweeping poetry of the bent stretchers. This table uses steam bent curves as compared to the bent laminations of table #5. The difference is subtle but the lack of the glue line allows me to approach the shaping and faceting of the curves in a different way.
